Professional Summary

I'm a motivated Computer Science student specializing in AI, ML, and IoT, passionate about developing smart and data-driven applications. Skilled in Python, Flask, front-end technologies, and data visualization, I enjoy turning ideas into interactive, user-focused solutions. I'm eager to apply my knowledge in machine learning and intelligent automation to real-world challenges while continuously learning and growing.

EDUCATION

GLA University B-tech , GPA: 7.34/10	Mathura, UP
Colonel Brightland Public School 12TH , GPA: 7.38/10	Ongoing AGRA, U.P. June 2021 - August 2022
Colonel Brightland Public School 10TH , GPA: 6.88/10	AGRA, U.P. June 2019 - August 2020

SKILL SUMMARY

- Languages: Python, SQL, JAVA, javascript
- Framework: Pandas, Numpy, TensorFlow, Scikit-Learn, Flask, Matplotlib, PyTorch, React
- Tools: Power BI, N8N, Tableau, Excel, PowerPoint, MySQL, SQLite,
- Platforms: PyCharm, Jupyter NoteBook, VS code, AWS cloud, Render
- Soft Skills: Report building, Team management, Excellent communication

WORK EXPERIENCE

Data Analysis INETRN mahesh edible oil industries limited On-Site	May 20,2025
- Worked on data pipelines for processing sales and inventory data. - Used SAP ERP for data management and extraction. - Built an ANN-based model to predict product orders. - Created interactive Power BI reports for sales trends and performance analysis.	

PROJECTS

Connect_Too Link	July 2024 – August 2024
Technologies: Flask, HTML, CSS, JavaScript, SQLite, Razorpay API Built a Flask-based web platform enabling users and service providers to connect efficiently. Implemented secure payment gateways (Razorpay, UPI, Wallet, COD), along with an admin panel for managing payments, feedback, and real-time notifications. Designed a smooth user interface with interactive success animations for better user experience.	
Fluenzy AI Link	
Technologies: AI/ML, Node.js, Python, React.js, MongoDB, LLMs, Gen AI, WebRTC Developed an AI-powered communication and interview preparation platform with real-time voice interaction and personalized feedback. Implemented adaptive question generation, performance analytics, and intelligent user profiling to track progress and improve learning outcomes. Built scalable backend services with secure authentication and real-time processing, enhancing user engagement through AI-driven insights.	
Health Care Monitoring System Link	DECEMBER 23 - FEBRUARY 24
Smart Shopping Cart Device Link	WORK-IN PROGRESS

CERTIFICATES

Programming in Python (Infosys) | CERTIFICATE

January 24, 2024

- Completed Basics of Python course by Infosys Springboard.
- Learned core Python programming fundamentals and logic building.

Data Analyst | CERTIFICATE

July 22, 2024

- Completed a micro experience in Data Analytics focused on Cohort Analysis to assess customer retention and lifetime value over time.
- Gained practical skills in analyzing customer engagement trends using real-world streaming platform data.

Power BI | CERTIFICATE

November 23, 2024

- Completed Power BI using DAX and AI course, gaining skills in data analysis and
- AI-driven visualizations.
